

An appeal to our patients and friends to donate their new and used DVDs, which are then shipped to America's fighting men and women overseas.

Will you please help our Troops by giving them safe entertainment?

Dr. Falkenroth and the rest of the staff at Five Star Chiropractic Center want to support our men and women overseas. Many of them are fathers, mothers, sons, daughters, grandsons, granddaughters, grandfathers, grandmothers, neighbors, friends, our fellow Americans. We want to give them the gift of safe entertainment.

Being involved in Operation DVD does not mean we support the war. We'd love for the war to be over ASAP and for our fellow countrymen to be safe at home with their families. Being involved with Operation DVD is our way of supporting our fellow Americans who find themselves caught in the middle of a big mess. When we heard about this program, we wanted to be a part of it.

We have many family members who spent many years in the armed forces in the same situation that our troops find themselves in now. We can only hope that they had the support group they needed to get through those difficult and trying times.

What's in it for you?

We have a simple offer that we hope will motivate you to bring in those DVDs. Our offer to you is: Bring in any new or used DVDs to our office and we will give you raffle tickets to our "World's Largest Christmas Stocking Contest" in return for your generosity. For each DVD you donate, you will receive 5 raffle tickets. If you have friends and neighbors with DVDs they'd like to donate, please tell them to bring them by the office and they too will get 5 contest tickets for every DVD they donate.

***Operation DVD* provides safe entertainment for our Troops which is a concept that is VERY difficult at best for U.S. Soldiers, Sailors, Airmen and Marines in Iraq and Afghanistan. As a matter of fact.....Even baseball and softball games are no longer possible in many areas because of snipers, mines, and other terrorist activities!!!**

According to SSG David Vance...

"DVDs are definitely the #1 form of entertainment over here."
